Inbound Service

We are specialized in inbound tax, accounting, and payroll services for international clients doing business in Germany. If you want to invest in Germany or think about doing business in Germany (e.g. founding a subsidiary), we will be there for you all the way.

Whether you just need information about taxes in Germany (the German tax system in general or specifics like the German corporate tax rate etc.), or whether you require the full range of services from the taxation of inbound investments to corporate inbound income taxation and international business tax planning, we look forward to assisting you.

Based in Munich, we are thoroughly familiar with German accounting standards. We provide inbound accounting as well as financial reporting and we consult on related issues of German corporate compliance (regardless of whether or not we also do the accounting for you).

Finally, we provide complete German payroll administration services. Of course we also assist you with all the small details like obtaining a German VAT number or a German bank account.

A Partner at Your Side

I see myself as your partner, both in the creative planning process of your future and in handling and processing your tax needs in proper form.

I have successfully worked with clients in regional small and medium-sized enterprises as well as with global and international enterprises for over 20 years. This experience is the solid foundation on which you can rely.

For complex issues I cooperate with accredited certified public accountants and Law Firms with one objective: to find and implement the best possible solutions for my clients.
